Toll Management	<p>Whether E-toll or National, we assist you by ensuring that your account charges are accurate. We analyse each toll transaction against telematics data, thus eliminating incorrect billing and ensuring that accounts are accurate. Our transactions verification includes:</p> <ul style="list-style-type: none"> • <i>Transaction Verification:</i> The toll info date/time stamp is verified against telematics date/time stamp with a GPS long and latitudes correspondence. Disputes are raised and resolved on your behalf where there are discrepancies. • <i>Cost Verification:</i> We compare the allocated toll cost against the vehicle class to eliminate issues where vehicles are overbilled. Disputes are raised and resolved on your behalf where there are discrepancies. <p>We also assist clients in minimizing the administrative task associated with the system by assisting our clients with the following:</p> <ul style="list-style-type: none"> • New tag registrations and free dispatch • One monthly simplified invoice which eliminates the "grey area" in the finance department • Tag re-registration from a dispose vehicle to a new vehicle at no additional cost 	Monthly/vehicle	R 39,99	
License Management	We renew the vehicles licenses on your behalf and keep your licensing up to date. In cases where roadworthy is required we will send you a reminder to ensure that there are no delays with regards to fleet licensing.	Monthly/vehicle	R 20,00	
Fines Management	Our Fines Management solution is done in compliance with AARTO legislation. We do weekly checks with all the listed municipalities on both BRN and Proxy ID information to ensure that all fines received are handled accurately and immediately. Handling the fines include both redirection of the fines received to the correct drivers and possible reductions in fine amounts.	Monthly/vehicle	R 20,00	
Driver Behaviour Management Solutions	We monitor how your drivers are driving your vehicles and distribute a daily Driver Behaviour Management Report to inform you who is performing poorly, stop at illegal locations, speeding vehicles, harsh braking and accelerating etc. The report will also assist you to manage disciplinary hearings. This service is offered on a Weekday basis only.	Monthly/vehicle	R 149,00	
BI Reporting - Tracking Database Module	<p>Managing tracking devices and the related reporting through the fleet management software solutions can take up a lot of your time. We provide you with a solution where we take your tracking information and produce an easy to use dashboard highlighting areas of concern where your fleet is concerned, saving endless hours of going through movement reports to identify issues. This information is produced based on your requirements, be daily, weekly or monthly. This reporting includes information such as:</p> <ul style="list-style-type: none"> • Driving behaviour • Exception Management • Idling cost • Location management reports • Stoppage information • Cost management • Etc. 	Monthly/vehicle	R 25,00	
BI Reporting - Maintenance Data Base Module	<p>Maintenance of your fleet is an essential part of managing your fleet. Knowing when vehicles are due for a service, what is costing you more than it should, is key to fleet management. This is normally done by most in either excel or in some kind of software application. To update excel and to run reports from systems in order to generate management reports are time consuming and sometimes not vary accurate. Our offering includes the following:</p> <ul style="list-style-type: none"> • When a vehicle is due for a service • Maintenance costs • Etc. 	Monthly/vehicle	R 25,00
